

2002 Legislative Survey Results

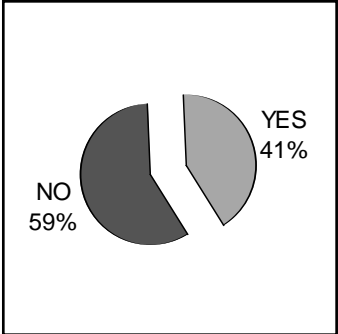

Following you will find the results of my 2002 legislative survey. I will keep your responses in mind as we work through this year’s legislative session. Throughout the session, please do not hesitate to contact me regarding any pending bill or concern you have. Contact me by phone 1-800-382-9467 or e-mail s31@in.gov.

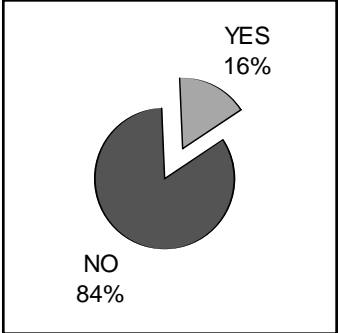

1) Should the Legislature adopt the O’Bannon-Kernan 21st Century Tax Plan as it has been proposed?

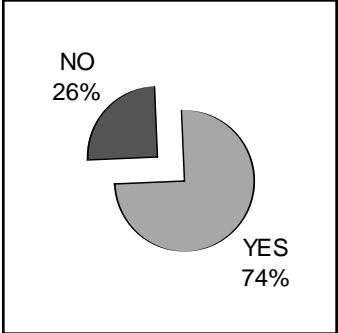

2) Should Indiana’s tax system be restructured in such a way that the reliance on local property tax is reduced by increasing state income and sales taxes?

3) A recent proposal suggests that, in addition to products, sales tax should be applied to services, like auto repairs or haircuts, excluding medical services. Should the state’s sales tax be expanded to cover services as well as products?

4) Should gambling profits currently earmarked for Build Indiana Fund local projects be diverted to help ease the state budget crisis?

5) Do you support a law which would limit future state spending increases to no more than 1 percent more than inflation?
